Summary

Data Analyst with a strong interest in transforming raw data into meaningful insights. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

Programming & Querying: SQL, Python

Data Visualization Tools: Advanced MS Excel, Power BI

Analytical Abilities: Data Cleaning, ETL Tool, Insight Generation, Descriptive Statistics

Tools: Git ,GitHub

Projects

Customer Shopping Behavior | *Power BI ,PostgreSQL, Python*

GitHub

- Cleaned and transformed 70,000 customer shopping records using Python (Pandas) and feature engineering.
- Performed SQL-based business analysis in PostgreSQL using CTEs, window functions, subqueries, and aggregations to answer 20+ business questions.
- Designed an interactive 3-page Power BI dashboard featuring KPIs, customer segmentation, revenue analysis, product performance, payment trends, and dynamic filtering using DAX measures and slicers.

Pizza Sales Analysis | *PostgreSQL , Power BI*

GitHub

- Cleaned and analyzed 48,620+ pizza sales records using SQL for data extraction, joins, aggregations, and data preparation.
- Developed 10+ business KPIs using SQL and DAX, including Total Revenue, Total Orders, Average Order Value, Average Pizzas per Order, and Top/Bottom Performing Pizzas.
- Built an interactive Power BI dashboard with cards, line, donut, bar, and treemap visualizations, along with slicers and drill-down filters to analyze sales performance by month, pizza category, size, and product.

Supply Chain Dashboard | *Power BI*

GitHub

- Developed an interactive 6-page Power BI dashboard to monitor end-to-end supply chain performance across Supplier, Inventory, Shipment, and Customer operations using dynamic visualizations and navigation.
- Performed data cleaning and transformation using Power Query and created 30+ DAX measures to track key KPIs, including Revenue, Profit, Inventory Value, Lead Time, Shipment Cost, Delivery Performance, and Quality Score.
- Delivered actionable insights by analyzing supplier performance, inventory trends, shipment delays, customer revenue, product profitability, and discount impact, enabling data-driven business decision-making.

Certificate

Data Analytics Certificate – Skill Course

Certificate

Completed practical in SQL, PostgreSQL, Python, Excel, and Power BI, including data cleaning, exploratory data analysis (EDA), dashboard development, and business insights using real-world datasets.

Education

Bachelor of Technology in Computer Science

2022 – 2026

Sanjeevan Group of Institutions, Panhala

Current CGPA: 7.56
